THUNDER CREEK
Fuel & Service Equipment

LUBE PICKUP SKID

230 GALLON CAPACITY | UP TO 4 SERVICE FLUIDS

Shown with Optional Air Compressor

COMPACT FIELD FLUID SERVICE

The Thunder Creek Lube Pickup Skid (LPS) brings core preventative maintenance fluids into a compact format designed to fit in the bed of a pickup or service truck.

The LPS is a good fit for crews that need smaller scale, organized service fluid capability tied directly to a specific truck or team. It can be equipped with up to four tanks with systems available for oil, coolant, reclaim, and top-off diesel.

MODEL SPECIFICATIONS

MODEL	LPS230
Tanks	55 or 115 Gallon Tanks
Capacity	Up to Four Fluid Systems | 230 Gallons
L | W | H	72" | 47" | 48"
Empty Weight	1,300 lbs. 1,526 lbs with compressor
