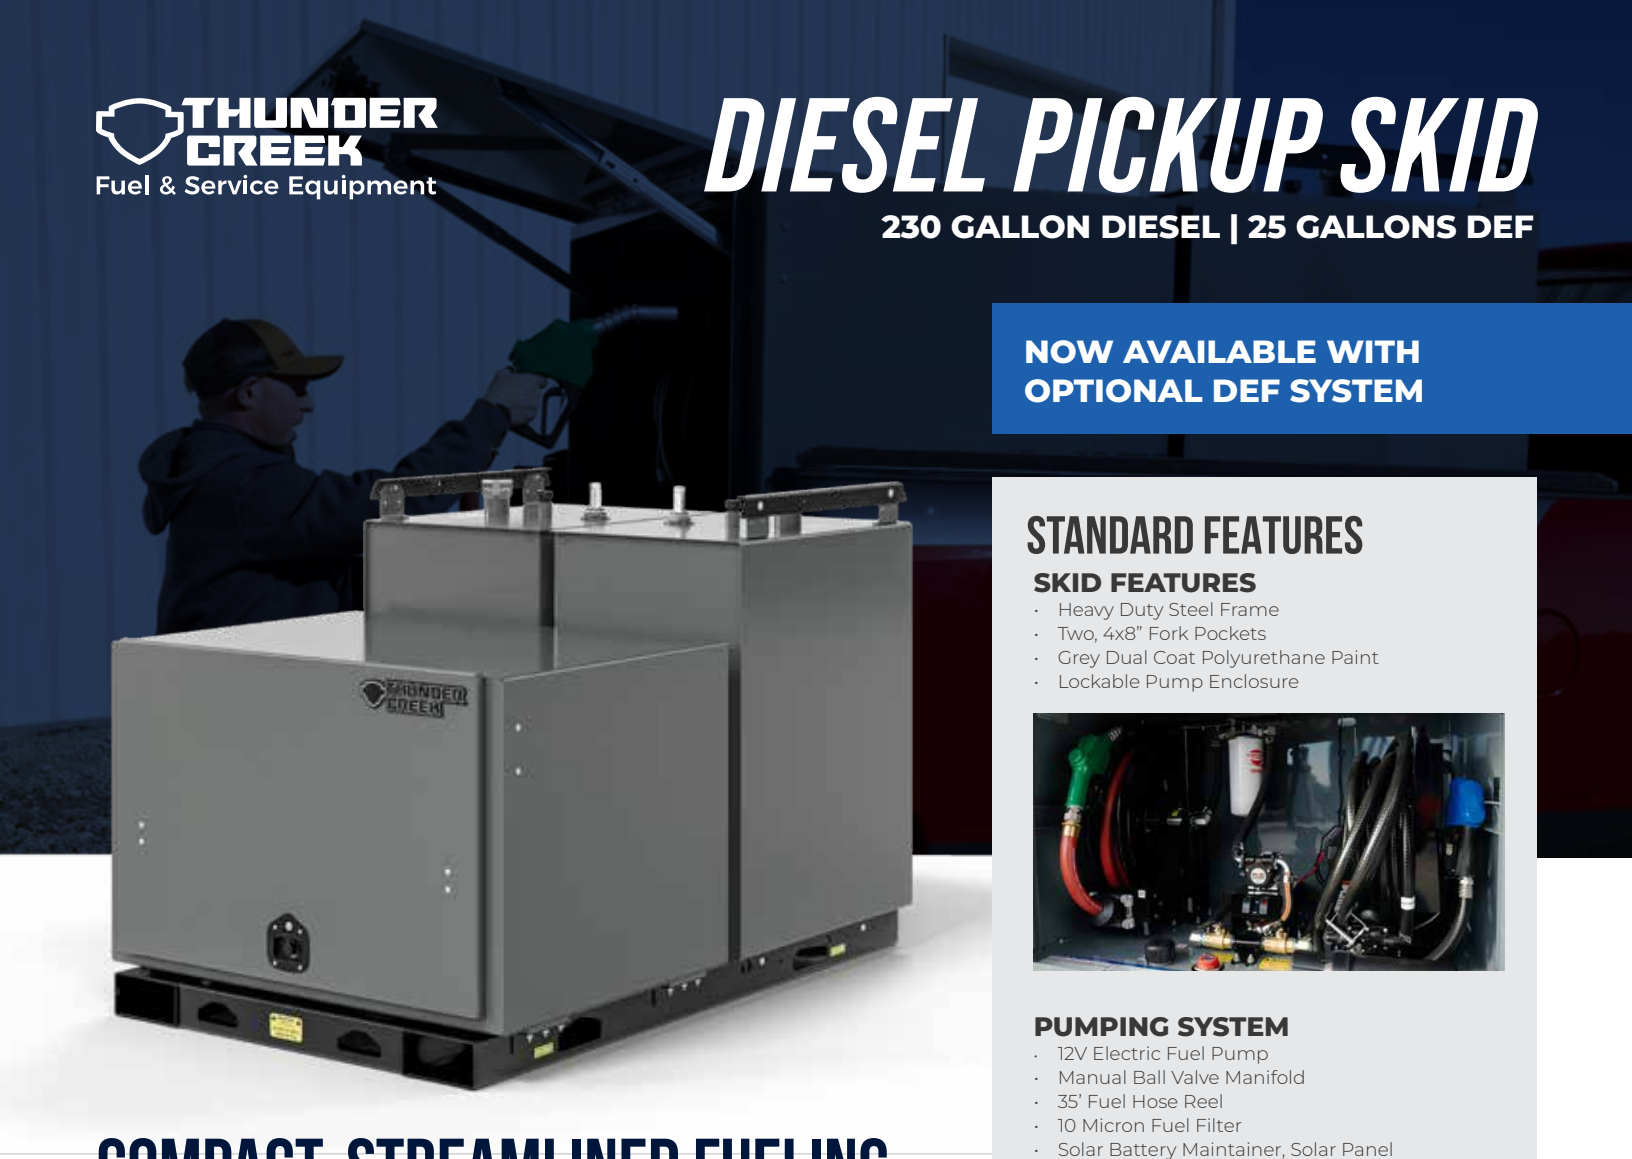
THUNDER CREEK
Fuel & Service Equipment

DIESEL PICKUP SKID

230 GALLON DIESEL | 25 GALLONS DEF



NOW AVAILABLE WITH OPTIONAL DEF SYSTEM

COMPACT, STREAMLINED FUELING

The Thunder Creek Diesel Pickup Skid (DPS) delivers practical, everyday field fueling in a compact diesel and DEF platform designed for straightforward deployment.

The DPS adds simple mobile fueling capability to an existing pickup or service truck without changing the vehicle's primary role. With an electric pump, integrated DEF, solar battery maintainer, and streamlined layout, it provides an easy way to keep fuel tied directly to a crew, a truck, or a specific workflow.
